

Multiply

Family Learning Opportunity

A great opportunity to join the Multiply programme to give parents, grandparents & other carers the numeracy skills needed to inspire children's interest & to support their learning.

Good numeracy skills may unlock job opportunities & lead to higher wages or prepare you for further study. They also help in everyday life, such as helping children with homework & budgeting money.

The target learners for the Multiply programme are adults 19+ who have not previously attained a GCSE grade 4/C or higher maths qualification. You can either be working towards a maths GCSE or Functional Skills Qualification, need specific numeracy skills for your work or progression or want to brush up on your skills to help you get on in life & work
